

reflecta x7-Scan 14 MegaPixel + Battery

With the **reflecta x7-Scan** with 3200 dpi resolution it's possible to scan with **14,0 Megapixel** and beside film and slide additionally pocketfilm (110) and 126 mm film. The **reflecta x7-Scan** offers a **2,4" LCD-Display**, an integrated **SD/SDHC card slot** and a **Lithium-Ion battery** to allow using the scanner completely independent from a PC or power supply, respective as **Stand-Alone Scanner**.

The Scans can be directly stored at the SD/SDHC card via the card slot to display them afterwards onto a Digital Photo Frame. The files from SD/SDHC card can be transferred onto the Computer via the USB port and USB-cable.

The brightness can be quickly adjusted by the correction button on top of the scanner. The enclosed Software is only an image editing program.
